# How to use platform

## 1) Wallet

- Send = send to another SMCT wallet
- Receive = for third part user to sent in

The screenshot displays the SMCT wallet interface. On the left, a sidebar lists features: Wallet, Buy Tokens, Transaction, Referral Program, Account, and Logout. The 'Wallet' feature is highlighted with a red circle containing the number '1'. The main area shows the 'Wallet Balance' section with three wallets: Smchain Token Wallet (0 SMC), Bitcoin Wallet (0 BTC), and Ethereum Wallet (0 ETH). Each wallet has 'Withdrawal' and 'Deposit' buttons. The 'Send SMC' modal is open, showing a warning: 'DO NOT send your token to exchange address which didn't support ERC20 token. Sending Smchain Token to any other digital asset address, will result in permanent loss.' The modal includes a 'Recipient Address' field with the placeholder 'Enter Smchain Token wallet address', an 'Amount' field set to '0.00' SMC, and a 'Transaction Fees' of '0.002 ETH'. A 'Send Now' button is at the bottom. On the right, a QR code is displayed with the text 'Only send Smchain Token (SMC) to this address' and a warning: 'Sending any other digital asset to this address, will result in permanent loss.' Below the QR code is the address '0xtec7b6b41821ef9618a133cc1d535c3f9491031b' and a copy icon. Red arrows point from the 'Send' and 'Receive' buttons in the wallet balance section to the 'Send SMC' modal and the QR code area, respectively.

**\*\* for Bitcoin wallet & Ethereum wallet only receive, once receive only can use to “Buy Token”**
